## Q4 and Full Year FY2018 Financial Performance

### **FY2018 Profit and Loss (Consolidated)**

- Gross Sales of Rs. 3,291 Crores, an increase of 112% y-o-y
- EBITDA increased to Rs. 1,533 Crores; Margin of 47%
- Net Profit increased to Rs. 1,032 Crores; Margin of 32%

### **Balance Sheet (Consolidated)**

- Gross Debt of Rs. 272 Crores (31 March 2017: Rs. 259 Crores)
- Cash (Net of Gross Debt) of Rs. 991 Crores (31 March 2017: Rs. 423 Crores)

### **FY2018 Profit and Loss (Standalone)**

- Gross Sales of Rs. 2,983 Crores, an increase of 114% y-o-y
- EBITDA increased to Rs. 1,441 Crores; Margin of 49%
- Net Profit increased to Rs. 914 Crores; Margin of 31%

### **Q4 FY2018 Profit and Loss (Standalone)**

- Gross Sales of Rs. 1,212 Crores, an increase of 205% y-o-y
- EBITDA increased to Rs. 706 Crores; Margin of 58%
- Net Profit increased to Rs. 454 Crores; Margin of 37%

### **Balance Sheet (Standalone)**

- Gross Debt of Rs. 155 Crores (31 March 2017: Rs. 127 Crores)
- Cash (Net of Gross Debt) of Rs. 1,042 Crores (31 March 2017: Rs. 499 Crores)
- Final Dividend proposed Rs. 12 per share for FY2018, totaling to full year dividend of Rs. 17 per share

Mr. K. K. Bangur  
Chairman

*“FY2018 has been a year of great transition for the company as we moved from a challenging state of business to a new era of strong profitability. One of the most important changes in our business environment was the phased closure of certain blast and induction furnace capacities in China in order to curb pollution and comply with international environmental standards. This has impacted Chinese steel exports which were down by more than 30% in 2017 y-o-y and are continuing to fall. These industry developments supported the commissioning of new electric arc furnace (EAF) steel capacities in China and also increased capacity utilization from existing EAF manufacturers globally. Further, closure of electrode capacities to the tune of 200 Kmt outside of China and additional 200-300 Kmt within China along with consolidation of the industry over the recent years have also contributed to this transition. These structural changes have resulted in a paradigm shift in our industry's supply and demand dynamics which has led to recovery of graphite electrode prices globally, both of which are expected to be sustained going forward.*”

*With this backdrop, I am pleased to report that Graphite India has posted a strong set of consolidated annual financial results. The underlying growth was driven by a combination of higher volumes, price realizations and capacity utilizations which increased from 74% to 85% y-o-y. Despite the strong performance in FY2018, our revenue and margin growth was held back by the timing of the fulfillment of certain low price orders both in India and Germany. However, as these orders are mostly completed the benefit of the higher prices will be reflected in our current year financial performance.*

*Looking into the year ahead, our capacity is fully booked for the first half of the year, mostly at current market price levels. This will result in significant margin expansion and enhanced profitability. Importantly, our German operations have returned to profitability in this new pricing environment and is poised to contribute significantly to the company's overall performance. Graphite India's management team remains vigilant and fully committed in driving operational excellence across its business units. Enhancing shareholder returns and creating long term value for all stakeholders is management's highest priority. We will continue to strengthen our position in the industry and take the company to greater heights.”*

# Steel Industry Overview

Crude Steel Production (million MT)	Three Months Ended				Twelve Month Ended			
	Mar-18	Mar-17	Y-o-Y (%)	Dec-17	Q-o-Q (%)	Dec-17	Dec-16	Y-o-Y (%)

Others	39.4	39.5	(0.4)%	41.5	(5.2)%	162.4	156.1	4.0%
<b>Total</b>	<b>425.2</b>	<b>408.8</b>	<b>4.0%</b>	<b>419.4</b>	<b>1.4%</b>	<b>1,691.2</b>	<b>1,605.1</b>	<b>5.4%</b>

### M-o-M Growth (%)

### Q1 CY2018 Regional Production

- According to World Steel Association (WSA), the world crude steel production increased by 4.0% to 425.2 million MT in Q1 CY 2018. The world crude steel capacity utilization in March 2018 was 74.5% as compared to 72.3% in March 2017
- India surpassed Japan to become globally the second largest producer of steel registering strong growth of 6.4% in Q1 CY2018. This was driven by domestic demand for steel which has bounced back over the past year and has been supported by a strong pick-up in infrastructure execution
- Steel production in Middle East is increased significantly by 24.4% y-o-y in Q1 CY2018 supported by recovery in oil and commodity prices and the outlook is positive for MENA countries
- In Q1 CY2018, the US steel production increased marginally by 1.9% y-o-y however, the outlook for steel demand in the US remains robust on the back of the strong economic fundamentals, consumption and investment
- The EU steel production increased by 1.1% y-o-y in Q1 CY2018 and further steel demand will be supported by a growth in infrastructure and manufacturing activities
- WSA forecasts global steel demand to increase by 1.8% to 1,616.1 million Mt in 2018, and further increase by 0.7% to 1,626.7 million Mt in 2019
- As per WSA, steel demand in developed economies' is expected to increase by 1.8% and in developing economies (excl. China) by 4.9% in 2018

- China steel exports are down more than 30% in 2017 from 2016 and are continuing to fall, according to the National Bureau of Statistics of China. China steel exports volume during January – April 2018 totaled 21.6 million MT, down 20% on y-o-y basis
- This has resulted in the global EAFs market share gain in 2017 which is forecasted to grow at a CAGR of 4.9% till 2019
- The closure of inefficient induction furnaces and highly polluting blast furnaces in China are being replaced by environment friendly electric arc furnaces (EAF's) which is supported by increased availability of scrap. Total steel production capacity of ~ 51 million MT through EAF route is expected to come online in 2018. These developments will further drive the sustainable demand for graphite electrodes
- About ~ 200,000 MT electrodes capacity has been shut down in China in an attempt to curb pollution
- These developments bodes well for the industry and have led to an improved demand and supply balance, along with sustainable recovery of electrode prices
- The needle coke industry is highly concentrated and petroleum needle coke demand is increasing due to its use in lithium-ion batteries used in electric vehicles. Hence, meaningful addition of electrode capacity is dependent on the availability of needle coke

# Standalone Financial Performance

(Rs. Crore)	Q4		y-o-y	Q3	q-o-q	Full Year		y-o-y
	FY2018	FY2017	Growth (%)	FY2018	Growth (%)	FY2018	FY2017	Growth (%)
Gross Sales <sup>1</sup> (Excluding Other Income)	1,212	397	205%	933	30%	2,983	1,392	114%
Net Sales (Excluding Other Income)	1,212	373	225%	933	30%	2,958	1,306	127%
Operating Profit (EBITDA) <sup>2</sup>	706	46	1,440%	530	36%	1,441	159	804%
Margin (%) <sup>3</sup>	58%	12%		57%		49%	12%	
Interest	2	1	81%	2	16%	6	7	(5)%
Depreciation	11	13	(12)%	11	(2)%	46	42	12%

Earnings Per Share	23.22	3.17	632%	17.43	33%	46.76	5.75	714%

## Notes:

1. From Q2 FY2018 onwards gross sales is net of GST
2. Operating Profit includes Other Income
3. All margins calculated as a percentage of Net Sales (excluding Other Income)

1

## Gross Sales

- Gross Sales for the quarter increased by 205% y-o-y to Rs. 1,212 Crores
- Sales were driven by improved realizations and increased sales volume

2

## Operating Profit

- Operating Profit (EBITDA) for the quarter was Rs. 706 Crores, an increase of 1,440% y-o-y
- EBITDA margins improved from 12% in Q4 FY2017 to 58% in Q4 FY2018 supported by improved realization with higher volume and optimum capacity utilization

3

## Net Profit

- Net Profit for the quarter increased to Rs. 454 Crores in Q4 FY2018 as compared to Rs. 62 Crores in Q4 FY2017, driven by improved realization and higher capacity utilization

\* Rs. Crore

4

## Operations

- Q4 FY2018 capacity utilization was 100% as compared to 89% in Q4 FY2017

Significant financial flexibility available for future organic / inorganic growth

# Quarterly Performance Trends

## Gross Sales

## Operating Profit (EBITDA) and Margins

## Depreciation and Interest

## Net Profit and Margins

Note: Q4 FY2017 Net profit include non recurring benefits arising out of favorable income tax orders

## Annual

(Rs. Crore)	Full year		y-o-y
	FY2018	FY2017	Growth (%)
Gross Sales	3,291	1,554	112%
Net Sales	3,266	1,468	123%
Operating Profit	1,533	126.0	1,116%
Margin (%)	46.9%	8.6%	447%
Net Profit	1,032	70	1,365%
Margin (%)	31.6%	4.8%	559%
Basic EPS	52.81	3.61	1,365%

(Rs. Crore)	31 <sup>st</sup> March	
	2018	2017
<b>Total Debt</b>	<b>272</b>	<b>259</b>
Less: Cash & Cash Equivalents	(1,263)	(682)
<b>Net Debt / (Net Cash)</b>	<b>(991)</b>	<b>(423)</b>
Net Worth	2,732	1,858

## Key Observations: FY2018 vs. FY2017

- Average capacity utilization was 85% in FY2018 as compared to 74% in FY2017
- Operating Profit increased due to increased volumes and realizations
- Management continues to target a consolidated capacity utilization of above 90% for FY2019

## Company Background

Graphite India is the largest Indian producer of graphite electrodes and one of the largest globally, by total capacity. Its manufacturing capacity of 98,000 tonnes per annum is spread over four plants at Durgapur (54,000 MT), Bangalore (13,000 MT), Nashik (13,000 MT) and Nurnberg in Germany (18,000 MT). The Company has over 40 years of technical expertise in the industry. Exports account for approximately half of the total revenues. Graphite India manufactures the full range of graphite electrodes but stays focused on the higher margin, large diameter, ultra-high power (“UHP”) electrodes.

Graphite India is well poised in the global graphite electrode industry through its quality, scale of operations and low cost production base. The Company’s competitive edge was particularly evident during the last decade, when low prices for graphite electrodes resulted in many of the leading players generating losses,

but Graphite India however remained consistently profitable and declared dividends. Graphite India currently has a conservative leverage profile with significant financial capacity for organic or inorganic expansion.

The Company’s strategy is to become further vertically integrated, continue its penetration of new markets and clients as well as pursue value enhancing inorganic growth opportunities. Graphite India also manufactures Calcined Petroleum Coke (“CPC”) for use in electrode manufacturing. It is enhancing its presence in value added graphite products for the auto, aerospace, chemical, pharmaceutical, metallurgical and machine tool industries.

The Company also has facilities designed for the manufacture of impervious graphite equipment and glass reinforced plastic pipes and tanks. It has an installed capacity of 27 MW of power generation through hydel and multi-fuel routes.

## Industry

Graphite electrodes are used in electric arc furnace (“EAF”) based steel mills and is a consumable item for the steel industry. The graphite electrode industry is highly consolidated with the top five major global players accounting for almost 75% of the high end UHP electrode capacity. Majority of this capacity however, is currently located in high cost regions like US, Europe and Japan. The manufacturing process, for the high end UHP electrodes is technology intensive and is a significant barrier for the entry of new players.

## Standalone and Consolidated Results for the quarter and full year ended 31<sup>st</sup> March 2018 (All amounts are in Lakhs of Indian Rupees, unless otherwise stated)

Notes to the financial results:

- 1 This Statement has been reviewed by the Audit Committee and approved by the Board of Directors at their respective meetings held on 11th May, 2018.
- 2 The consolidated financial results relate to Graphite India Limited (GIL), (the Parent Company) and its wholly owned subsidiaries Carbon Finance Limited and Graphite International B.V. (GIBV) and GIBV's wholly owned subsidiaries namely, Bavaria Electrodes GmbH, Bavaria Carbon Holdings GmbH, Bavaria Carbon Specialities GmbH and Graphite Cova GmbH.
- 3 The figures of the last quarter are the balancing figures between the audited figures in respect of the full financial year up to 31st March and the standalone unaudited published year-to-date figures up to the 31st December, being the date of the end of the third quarter of the financial year which were subject to limited review.
- 4 On 2nd February, 2018, the Board of Directors approved payment of interim dividend @ Rs 5/- per equity share (Face value Rs 2/- each) for the year ended 31st March, 2018 on 19,53,75,594 equity shares. The Board has recommended final dividend @ Rs 12/- per equity share of Rs 2/- each.
- 5 In accordance with the requirements of Ind AS, revenue (as indicated in serial no 1) for the period after 30th June, 2017 is net of Goods and Services Tax ('GST'). However, revenue for the period upto 30th June, 2017 is inclusive of excise duty (as indicated in serial no 4(g))
- 6 The figures of previous periods for the quarter and for the year ended on 31st March, 2017 were audited by a firm of Chartered Accountants other than S.R. Batliboi & Co. LLP.

Place : Kolkata  
Date : 11th May , 2018

By Order of the Board  
For Graphite India Limited

K.K.Bangur  
Chairman

## Forward Looking Statements

*This presentation contains statements that contain “forward looking statements” including, but without limitation, statements relating to the implementation of strategic initiatives, and other statements relating to Graphite India Limited’s (“Graphite India” or the “Company”) future business developments and economic performance.*

*While these forward looking statements indicate our assessment and future expectations concerning the development of our business, a number of risks, uncertainties and other unknown factors could cause actual developments and results to differ materially from our expectations.*

*These factors include, but are not limited to, general market, macro-economic, governmental and regulatory trends, movements in currency exchange and interest rates, competitive pressures, technological developments, changes in the financial conditions of third parties dealing with us, legislative developments, and other key factors that could affect our business and financial performance.*

*Graphite India undertakes no obligation to publicly revise any forward looking statements to reflect future / likely events or circumstances.*
