Dear Sirs,

Sub: Intimation under Regulation 30 of the Securities Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015

Weak European economy fuelled by the Russia Ukraine conflict have led to an unprecedented increase in energy and gas costs rendering our German electrode operations unviable. The local management has decided to shut down its German graphite electrode production as of now while restructuring speciality and coating operations as they are not so energy intensive. This is for information and noting.

Thanking you,

Yours faithfully,
For Graphite India Limited

S. Marda
Dy. Company Secretary
